

UST MEDICINE CLASS '78 CELEBRATES 30TH IN HONOLULU

What can some 40 accomplished physicians from around the world do in Honolulu to relive their lives 30 years ago? The three-day sojourn started with an Aloha Reception at Kahala, followed by a chain of chaotic fun, camaraderie, confrontations, and classy decorum while: circling-the-island with lunch-stop at a shrimp farm; pondering on Noblesse Oblige at a hosted dinner capped with an abridged musical presentation of Butterflies and Kisses; dancing the years through at a gala celebration at the Hilton Hawaiian Village no less and highlighted by a Polynesian review and the music of John Valentine and Rocky Brown, bar-b-queing during the picnic at a Kailua beach house and cooling off with Continuing Medical Education topics. Yes, there were recollections, toasts, awards, photo ops, class-clip presentations, more dancing and when it ended, three days were not long enough.
